Re: Lemoyne Road & Middleton Pike Waterline Update.

Dear Residents,

As construction nears, we wanted to update all residents on Lemoyne, Middleton Pike, and Pemberville Roads on the progress and schedule of the waterline project planned for construction this year.

This project is scheduled to advertise September 28th with award occurring October 13th. We anticipate construction to commence in mid November with completion occurring around mid February or March time frame.

Voluntary well testing will be available to residents that are interested. If you choose to have your well tested, you can contact Jones and Henry Laboratories at (419) 666-1021 before October 28th to make an appointment. Additionally, you will need to contact them at the completion of construction to make an appointment for follow up testing. A mailing will be sent notifying you once construction is complete.

We will continue to keep you informed on the progress and schedule of this project. In the mean time, if you have questions, please do not hesitate to contact me at (419) 354-9090 ext 175 or Bill Barber. You may also visit us at our website at www.nwvsd.org.

Sincerely,

NORTHWESTERN WATER & SEWER DISTRICT

John C. Sopko
Project Manager
