**THE DISTRICT**  
WATER & SEWER

# WATERWORKS

Volume XI | Issue VI

Above: A look at the crowd and the fun at our May Open House! Thanks to all of our customers who attended and took the time to learn more about how we care for water.

## WATER QUALITY

The EPA requires community water systems to provide Consumer Confidence Reports (CCRs) to our customers. These reports provide information about your local drinking water quality. The CCRs summarize data regarding water sources (e.g., rivers, lakes, reservoirs, or aquifers), detected contaminants, compliance details, and educational information. CCRs are released annually with information from the previous calendar year.

CCRs for our water service areas are available on our website: [NWWSD.ORG](http://NWWSD.ORG)

### PUBLIC PARTICIPATION

The District encourages public interest and participation in our decisions affecting drinking water. The Board of Trustees meet regularly at The District's Operations Facility located at 12560 Middleton Pike, Bowling Green. The public is welcome to attend these meetings and can ask questions or express concerns if desired.

**Responsible for every drop.**

## CUSTOMER CARE

### CONSTRUCTION NEAR THE DISTRICT

If you take I-75 to get to The District offices, be prepared for a detour. The Ohio Department of Transportation will close the I-75 bridge and interchange ramps, along with portions of SR 582 from Mercer Road to Caris Road for road and bridge work.

### HOW TO GET TO THE DISTRICT

We recommend you take SR 25 to SR 582 to avoid the closure. The closure is expected to last through mid-June. Check [OHGO.COM](http://OHGO.COM) for the latest construction information.

## WATER GRANTS

School's out for summer, but we'd like to thank all of the teachers and students who participated in our Water and Environment Teacher Education Resources (WATER) grant program. *Continued Page 2*

*Pictured below: District Board Member Rob Armstrong presents Kelly Heintz and Holly Stager along with Lake High School LifeSkills students with a \$500 WATER grant in May.*

## ANNOUNCEMENTS

District Board of Trustees Meetings are held the second and fourth Thursday of every month at 7:30 a.m.

Board meetings are open to the public.

Happy Father's Day,  
Sunday June, 16

**HAPPY  
FATHER'S  
DAY**

The District Office will be closed on Thursday, July 4, Independence Day

### Mission

*Our goal is to be the premier water and wastewater provider in Northwestern Ohio. We are committed to sound financial management, responsible environmental stewardship, responsive public service, superior customer service, and responsible economic growth. We strive to field a skilled, respectful, and cooperative workforce dedicated to the highest professional and ethical standards; we support them with appropriate training and technology.*

# CONSTRUCTION CORNER

## CURRENT PROJECTS

### DISTRICT-WIDE HYDRANT FLUSHING

Weekdays from 8 am until 3:30 pm, crews will be flushing and testing fire hydrants throughout The District. Residents are advised to flush water from taps if water becomes discolored.

### NORTHWOOD/ROSSFORD - LEAD SERVICE LINE REPLACEMENT

Through June, lane restrictions are possible in Northwood & Rossford for restoration. Project investment: \$900,000.

### PERRYSBURG TOWNSHIP - WATERLINE IMPROVEMENTS

Through July, intermittent lane restrictions are possible on Tracy & Mc Nerney Roads for waterline improvements. Additionally, lane restrictions are possible at the intersection of Oregon Road and Caple Boulevard. Project investment \$155,000

### ROSSFORD - SEWER REPLACEMENT

Through June, watch for shoulder restrictions on roads north of Eagle Point Road for sewer lining. Project investment: \$767,000.

### WESTON – METER RELOCATION

Through August, short-term water service shut-offs are possible in various locations in Weston for meter relocation. Project investment: \$303,000.

For updates on all construction projects, visit:

[nwwsd.org](http://nwwsd.org)

Above: District crews are in the process of flushing and painting the over 3,800 hydrants around The District.

# WATER GRANTS

Continued from Page 1

In May, The District presented Lake Local Schools with two grants for a total of \$1,000 to go toward teaching students about clean water.

The District also presented Northwood Middle School with a WATER grant in April and Eastwood High School a \$500 grant in March.

According to District President Jerry Greiner, "We are proud to support our teachers in helping students learn about protecting our number one resource, our water."

In addition to the funding, The District also offers opportunities for grant participants to tour local water and wastewater treatment plants, presentations from The District team members, and more.

If you are a teacher interested in learning more about the WATER grant program for your school, contact The District.
