Residents/Owners Located In the Colony Subdivision

Re: Colony Area Sanitary Sewer Rehabilitation Project Update

Dear Owners/Residents:

The Northwestern Water & Sewer District ("District") would like to update you on the Colony Area Sanitary Sewer Rehabilitation Project.

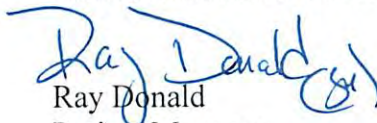

The District's contractor, Utilicon Corporation, has completed the installation of the main line sanitary sewer and the private sewer laterals have been connected at the Right of Way. The District is now in the restoration phase and restoration work will proceed as weather permits. The work includes sidewalk replacement, concrete and asphalt paving, concrete curbing, repairing any areas that may have settled over the winter, fine grading, seeding and mulching. (The contractor is responsible for restoring the area and planting grass.)

Please call with any problems you have during this restoration process. We apologize for the inconvenience and delays that you have experienced during this project.

If you have any questions in the meantime, please call me at (419) 354-9090 ext. 173.

Thank you in advance for your cooperation.

Sincerely,
NORTHWESTERN WATER AND SEWER DISTRICT

Ray Donald
Project Manager
